Utility Hub Mobile App

Tech Stack-use: (Android, Compose, Firebase) – Ongoing Development

March 2025 - Present

- A multi-utility application featuring a Calculator, Unit Converter, Counter, Notification Sender, Filters, and Weather module. More features are under development.
- Integrated in-app feedback system for user reviews and Firebase Authentications for secure login and data management.

Medical Vendor API App

Tech Stack-use: (Jetpack Compose, Flask, Sqlite3 Database)

February 2025

- Developed a medical vendor (B2B) API list application with a clean and interactive UI using Jetpack Compose.
- Implemented a flask for efficient task storage and CRUD operations.

Bulk Email & WhatsApp Automation

Tech Stack-use: (Google App Script, REST API)

March 2025 – April 2025

- Developed a conditional trigger-based automation system using Google Apps Script for bulk communication.
- Implemented time-based triggers and custom conditions for automated email and WhatsApp message delivery.

EDUCATION

Shiv Prakash Memorial School

10 + 2 in Commerce Stream | June 2021

SSR College of Arts, Commerce & Science

BBA in Computer Applications, January 2025 | Graduated

January 2025

TECHNICAL SKILLS

- **Programming Language:** Kotlin, Core Python, PHP | **Version Control:** Git, GitHub
- **Mobile Development:** Jetpack Compose, Android SDK, Firebase, UI/UX Design
- **Backend Development:** Flask (Basic), SQLite | **Tools:** Android Studio, Figma, Creatie.ai

CERTIFICATES & WORKSHOPS

- **Neat Roots** – Full Stack Android Development | September 2024
- **Android App Development** – Two Days National Workshop | February 2024
- Best Reader Award 2023-2024 | Kotlin Programming | **Great Learning** in C Programming | **EFA PHP** Courses
